(e) the steps proposed to increase coal production in 2007-08 in the country?

THE MINISTER OF STATE IN THE MINISTRY OF COAL (DR. DASARI NARAYAN RAO): (a) The Working Group Report on Coal and Lignite for 11th Plan has envisaged the demand of coal for various power generation and other industries in the terminal year of 11th Plan (2011-12) would be to the tune of 731.00 Million tonnes and the total indigenous availability of coal would be about 680.00 Million tonnes. thus, a gap of about 51 MT consisting of 41 MT of coking coal and 10 MT of non-coking coal has been estimated, which is likely to be met by imports.

(b) The details of imports during 2004-05 and 2005-06 by various consumers is given below:—

(figures in million tonnes)

	2004-05	2005-06
Coking Coal	16.93	16.89
Non-coking Coal	12.03	21.70
Coke	2.84	2.62
Total import	31.80	41.21

(c) The total import by various consumers during 2006-07 was 48.80 million tonnes and as per available information, during 2007-08, till September, 2007 the total import by various consumers was about 26 million tonnes.

(d) Major production bottlenecks at coal mines of Coal India Limited (CIL) are as follows:

(i) Problems of Land acquisition and physical possession for mining & rehabilitation of People Affected by Project (PAP).

(ii) Mismatch between developments of coal projects *vis-a-vis* transport facilities available.

(iii) Procedural delay in Environmental Management Plan (EMP) & Forest Land Clearance.

(iv) Law and Order disturbances in coalfields areas.

(e) The following steps have been taken by Coal India Limited to increase production during 2007-08:—

(i) Procurement action has been initiated for high capacity shovel and dumpers in opencast mines.

(ii) Locations have been identified for mechanization in underground mines.

(iii) Standard Notice Inviting Tenders (NITs) are being prepared to avoid delay in finalization of tenders for procurement of equipments and major development activities.

(iv) 18 projects have been approved in 2007-08 (till February, 2008), for an ultimate capacity increase of 66.36 million tonnes per year.
